Notes:

-The AAU Membership year runs from September 1 through August 31.

-Those applying for a Non-Athlete membership will have a background check performed, therefore Non-Athlete applications will not be approved instantly and must wait for the background check to complete before receiving an AAU Membership Number. This process usually takes from 1 to 10 business days to complete, but may take longer in some cases.

-Insurance is a benefit of membership and is effective for Athletes on the date payment is received and effective for Non-Athletes on the date the background check passes.

-Memberships must always be paid and member number issued prior to participation in any activity (including practices and try-outs).
